

bespoke design & heritage

We regularly fulfil bespoke orders, and we are capable of manufacturing products to suit customer requirements.

Over the years, Croft has been commissioned to manufacture specialist items to furnish many buildings of importance, such as royal palaces, government houses, historic castles and stately homes. We also supply architectural hardware items to theatres, museums, hotels and private residences.

Whether we are asked to replicate a design to match the original as closely as possible or to design and manufacture a new item to an exact specification, our knowledge and experience of manufacturing high quality bespoke fittings using lost wax process or traditional sand casting is unparalleled.

Our products can be produced in a wide variety of finishes, to perfectly simulate or match aged patina or the period and feel of the buildings and the location in which they are to be fitted.

**CROFT**  
Long Lasting Tradition
